Troubleshooting Common Haier Dehumidifier Issues

Even the best appliances can sometimes encounter problems. Consult your Haier dehumidifier user manual first, but here are some common issues and potential solutions:

- **Water Tank Full Indicator Light Remains On:** Empty the water tank. If the light stays on, check for any blockages in the drainage system (if applicable).

- **Storing the Dehumidifier:**

When not in use for extended periods, empty the water tank, clean the filter, and store the dehumidifier in a cool, dry place.
