Essential Maintenance and Regular Checks: A Preventative Approach

Regular maintenance is key to the longevity of your Mitsubishi Chariot Grandis. Neglecting routine checks can lead to costly repairs down the line. Here are some crucial aspects:

- **Engine Oil and Filter Changes:** Following the recommended oil change intervals specified in your owner's manual is critical. Using the correct oil viscosity is equally important. - **Fluid Levels:** Regularly check and top up fluids such as coolant, brake fluid, power steering fluid, and windshield washer fluid. Low fluid levels can compromise the safety and performance of your vehicle.
- **Brake System Inspection:** Inspect your brake pads and rotors regularly for wear and tear. Worn brakes are a serious safety hazard. Listen for any unusual noises from the brake system which can indicate problems.
