Introduction to Prasuti Tantra and the Tiwari Lineage

Prasuti Tantra, a branch of Ayurveda, focuses specifically on the health of women during pregnancy, childbirth, and the postpartum period. It emphasizes a holistic approach, addressing not only the physical aspects but also the emotional and spiritual well-being of the mother and child. While the exact origins of the Tiwari lineage within Prasuti Tantra are often undocumented and passed down through oral tradition, its teachings align with core Ayurvedic principles, particularly the emphasis on balancing the doshas (Vata, Pitta, and Kapha). This lineage likely represents a specific school of thought or a family tradition within the broader practice of Prasuti Tantra.
