The Village, at this time, was a melting pot of artists, writers, and intellectuals who defied traditional societal norms. This iconoclastic spirit

naturally aligned with the suffragists' call for change. Many Villagers saw the fight for the vote as an extension of their broader struggle against injustice, be it social, artistic, or political. The progressive atmosphere fostered a fertile ground for debate around suffrage, with salons, coffee houses, and public squares becoming impromptu forums for political engagement.

However, the Village's response wasn't monolithic. While many wholeheartedly supported the suffrage movement, others wavered. Some artists and writers, deeply invested in their individualistic pursuits, saw the organized political struggle as a detour from their creative work.
